## Shoe Cover

Webb provides shoe covers of different materials such as Polyethylene, Chlorinated Polyethylene, Polypropylene. With a default shoe cover size: 46x15 cm.

### Polyethylene

- Thickness of 0.02mm
- Material: Polyethylene
- 110pcs per bundle
- 3,300pcs per carton box
- The most cost-effective type

### Chlorinated Polyethylene

- 28 gram per square meter
- Material: Chlorinated polyethylene
- 110pcs per bundle. 3,300pcs per carton box
- CPE are gentler than PE type shoe cover

### Non-Woven Polyethylene

- 28 gram per square meter
- Non-woven also known as PP, which refers to polypropylene
- 100pcs per bundle. 3,000pcs per carton box.
- Non-woven is one of most commonly known type of shoe cover

### Non-Woven Polyethylene With Rubber Band

- 28 gram per square meter
- Non-woven is also known as polypropylene
- 100pcs per bundle. 3,000pcs per carton box
- With rubber band being at the bottom, the shoe cover looks much more adept on the shoes when the person wears. It also makes it non-skid material as a result of rubber band present at the bottom

### Non-Skid Non-Woven Polyethylene

- 28 gram per square meter of non-woven
- 1.6 gram per square meter of rubber painting
- Non-woven which is also known as PP (Polypropylene)
- 100pcs per bundle. 3,000pcs per carton box
- Non-skid painting present underneath the shoe cover

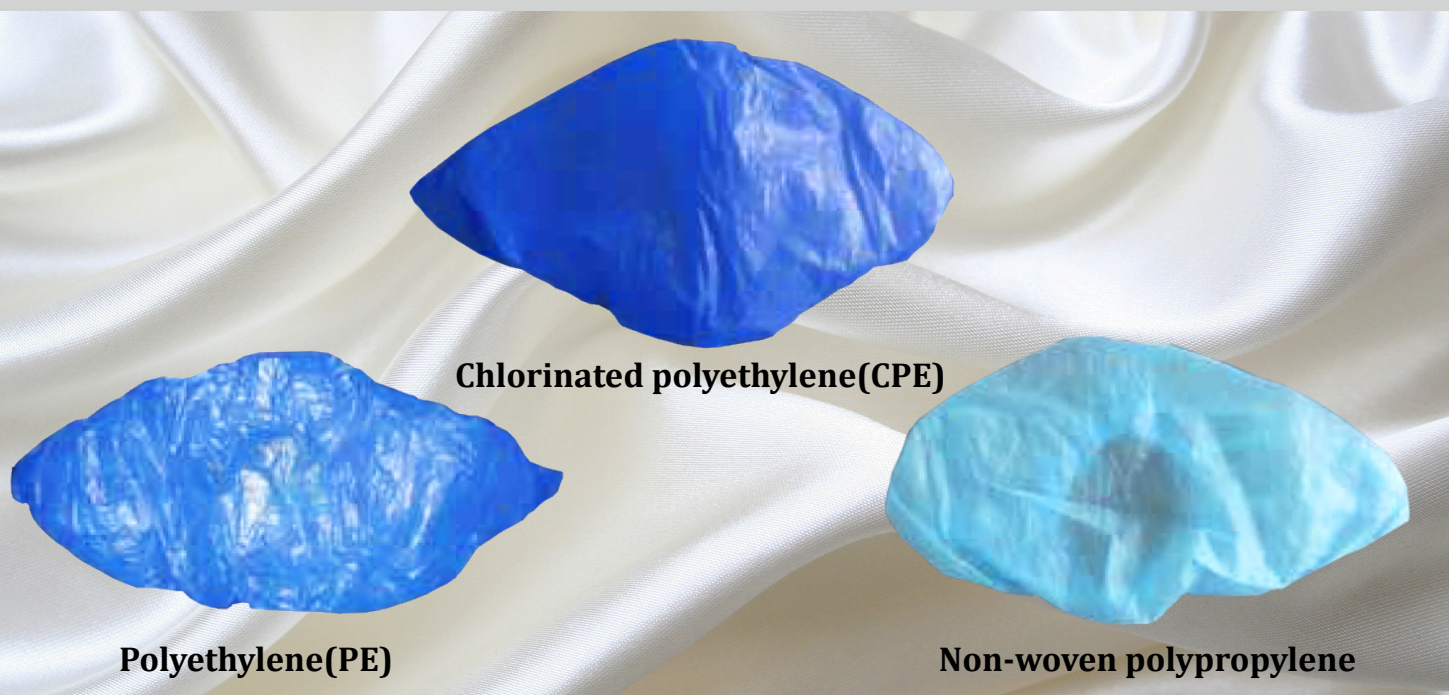

*\*Specifications are subject to change without notice based on technical recommendations and related product enhancements*

## Non-woven with CPE Coating

- 37 gram per square meter of non-woven with 30 gram per square meter of CPE coating
- 70pcs per bundle. 2,100pcs per carton box
- Most dense type of shoe cover
- Higher longevity on rough floors

## Super Non-Skid Water-Resistant Non-woven

- 30 gram per square meter of non-woven with 22 gram per square meter of PE coating
- 80pcs per bundle. 2,400pcs per carton box
- Highly known for non-skid functionality
